

The Simmon Drive Project is a joint partnership between the Town of Osceola and the Village of Osceola.

Start Construction Notice

Simmon Drive Reconstruction

September 10, 2024

Dear Resident,

Albrightson Excavating is scheduled to start construction activities beginning on Thursday, September 12, 2024, and it is anticipated that construction will last for 2 to 3 weeks. The contractor's working hours will be 7am-7pm Mon-Fri.

The project is generally described as a pulverize and overlay of Simmon Drive, from 75th Avenue (CTH M) to Airport Road, including roadway widening, shoulder construction, pavement striping and turf restoration. Albrightson will start by widening the road on both sides while leaving the existing pavement in place. Once the road is widened, they will grind up the existing asphalt and pave the new road surface. Residents will have vehicle access to their homes during the project, however, there may be periods of time during the workday when access may be temporarily restricted.

Mailboxes will need to be removed during construction and reinstalled when construction is complete. During that time, a temporary bank of mailboxes will be placed at the south end of the project near Airport Road. All mail will be delivered at this location until the mailboxes are reinstalled.

If you have questions, please feel free to call me at 651-252-7094 at your convenience.

Thank you,

Angela Popenhagen - Stantec Engineering
